Molly:

The October April meeting schedule sounds good to me.

I haven't had a chance to dig through the EIR for Malibu WWTP. Comments are due on the 28th of July.

Try you later today.

Hey Tom,

I just tried to call to check-in.

3 things:

1. GB meeting: We had talked about me coming down again soon for a GB meeting – I had penciled in Aug 21, but I see the email from Scott that the Aug may be canceled. Maybe we can try next one Oct 16th- things are pretty hectic for me right now so that may be better. I came last October too so thinking maybe I can start to make that a regular schedule- bi-annual visit every October and April?
2. City of Malibu Civic Center Waste water treatment draft EIR. Someone in my office asked me to review but I don't have bandwidth right now. Our groundwater office is reviewing since they intend to inject effluent into deep injection wells. I told them that I know the treatment facility is in the BRP, but just wanted to know if there were any issues with it you were aware of that I should take a look at since it is nearby the recently completed lagoon.... Not my top priority but wondering if there was anything you knew about that we should look at.
3. Saw your interview with Santa Monica Mirror..... love it! You are slaying it- gangbuster style!

Hope all is well!
